### PROFILE

Software Developer currently graduating from Bennett University while I am studying I tend to gain detailed understanding of Software Development. Writing efficient code is the skill I gained in the process my project development experience. I have led many teams in my graduation journey till now which gives me ability to work in a collaborative environment.

### WORK EXPERIENCE

Head of Design

**IEEE | Bennett University**

2022-2023

As the Head of Design at the IEEE Student Chapter, my job was to oversee, manage, and shape the visual identity of the chapter. I was ensuring that design elements effectively communicate the chapter's mission and values. By utilizing my design expertise and collaborating with others, I was supposed to promote the chapter's activities to a wider audience and enhance its overall brand presence.

Design Team Member

**Geeks for Geeks | Bennett University**

2021-2022

As a key member of the university chapter's design team for Geeks for Geeks, I bring creativity and precision to every project. With a keen eye for aesthetics and a solid understanding of user experience, I contribute to crafting visually appealing and intuitive designs. My collaborative spirit and adaptability allow me to thrive in dynamic environments, delivering exceptional results that exceed expectations.

### PROJECTS

**Portfolio Website**

My portfolio website is a visually captivating platform that showcases my diverse range of skills. With a great design and intuitive navigation, visitors can easily understand my passion and enthusiasm towards my work. Engaging content, a responsive layout, and a personal touch make it an immersive and memorable experience.
